

A pulmonary research *institute.*

APRIM is a small, specialty-focused clinical research institute in Bloomfield Hills, Michigan. We run Phase 2–4 trials for pharmaceutical and biotech sponsors with industry-grade operational rigor and neighborhood-level patient care.

PHASE 3 RETENTION

§ MISSION

Research in *service* of breathing.

APRIM exists because too many of the people who live with COPD, asthma, or pulmonary fibrosis in southeast Michigan were being asked to drive an hour each way to participate in the research that might help them. We built an institute to meet them where they already are.

We focus exclusively on pulmonary medicine. Every study we take on is one our principal investigator has treated patients for in clinical practice. Every protocol is executed by coordinators trained in respiratory care, not generalists. Every participant gets the same face on every visit.

It is a narrow mandate. It is the only one we want.

§ 01 / TEAM

The *people* who answer the phone.

8 FTE • BLOOMFIELD HILLS, MI

DR. PARODI FOUNDER • PI Franco Parodi, MD Triple board-certified in Pulmonary, Critical Care, and Internal Medicine. 40+ trials as PI.	DR. HART SUB-INVESTIGATOR Meera Hart, DO Pulmonology. Sub-investigator on severe asthma and IPF programs. Fluent in Spanish.	R. WILKES RESEARCH DIRECTOR Rebecca Wilkes, RN, CCRC Oversees protocol execution, regulatory submissions, and participant safety.	T. LIN LEAD COORDINATOR Tomás Lin, CCRC Your first and most frequent point of contact. Runs study visits day-to-day.
J. OBI PFT SPECIALIST Joelle Obi, RPFT Certified pulmonary function technologist. 12 years in respiratory research.	A. REY PATIENT ADVOCATE Andrea Rey Helps participants navigate transportation, scheduling, and anything else we can fix.	M. SOTO REGULATORY Mateo Soto IRB submissions, sponsor reporting, and everything the FDA needs in a tidy binder.	S. BRAND OPERATIONS Simone Brand Keeps the clinic running, scheduling sharp, and our coffee machine in working order.

§ 02 / HISTORY

Seven years, *five moments.*

UPDATED • 2026

2019

APRIM founded in a single exam room. First COPD trial begins in November.

2020

Seven new trials activated. We learn to do home monitoring when visits become impossible.

2021

Dedicated 4,200 sq ft research suite opens in Bloomfield Hills. Dr. Hart joins as sub-I.

2023

500th participant enrolled. First IPF anti-fibrotic program completes Phase 2 readout.

2026

Three studies actively enrolling. Vaccine program expands. PMA partnership formalized.

§ 03 / CAPABILITIES

What we have *on-site.*

4,200 SQ FT • BLOOMFIELD HILLS

PULMONARY TESTING	Full PFT laboratory Spirometry • lung volumes • DLCO • 6-minute walk • FeNO	✓ Calibrated daily, NBRC-certified technologist
IMAGING	HRCT + chest radiography Via partner imaging center • 1.2 mi from site	✓ Same-day scheduling, secure sponsor transfer
SPECIMEN	IATA-certified specimen handling Central lab processing • on-site -80°C freezer • courier chain	✓ Sponsor-qualified for oncology-grade chain of custody
SYSTEMS	EDC • CTMS • eSource-ready Veeva • Medidata Rave • Oracle Siebel — compatible	✓ Part 11 compliant, typical activation 28 days
REGULATORY	Full IRB submission infrastructure Central + local IRB workflows • 1572/FDF on file	✓ Zero critical findings last 3 audits

♦ WORK WITH US

Let's start a *conversation.*

Whether you're a volunteer, a sponsor, or a referring physician, the same number reaches a real person at APRIM. No call tree, no triage queue.
